BOSS[™]
SOLAR

NANOTEK[®]

THE IDEAL CHOICE FOR WHEN YOU'RE LIMITED ON ROOF SPACE

Nanotek[®] is a solar pool heating collector that has been designed using Boss Solar's innovative and unique MULTILAYERED technology (layered materials) and high-grade materials for optimal heating performance. This makes it the ideal choice for smaller roof spaces, or installation alongside PV (electricity) panels.

Harnesses the sun's free energy to heat your pool, and enjoy exceptionally low running costs, with no greenhouse gas emissions or impact on climate change. The highly efficient solar collector can increase your pool temperature by more than 10°C, doubling your summer fun and giving you maximum enjoyment from your investment.

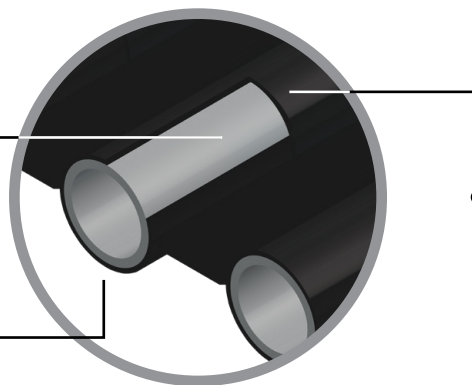

Nanotek[®] can adapt to almost all roof designs, shapes, pitches and sizes.

NANO GRAPHITIC INNER LAYER

Allows for optimum heat transfer

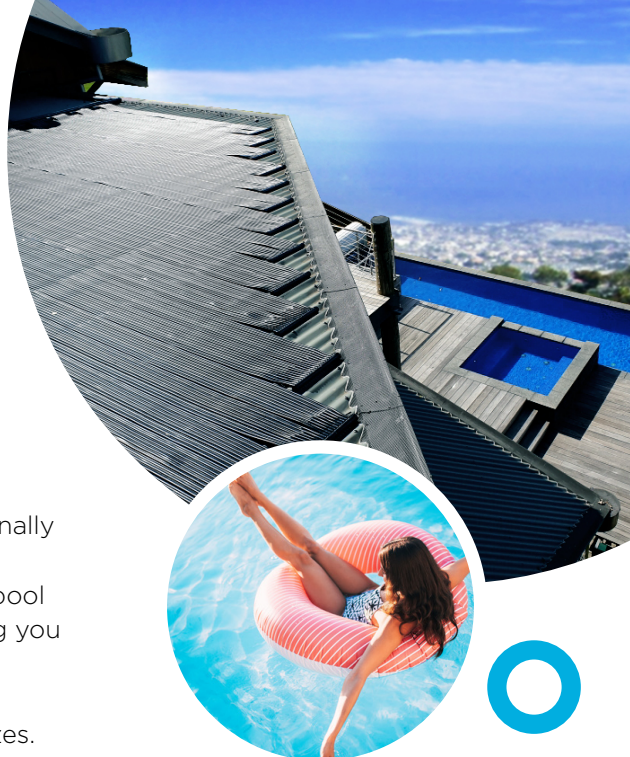

LARGER 8MM DIAMETER TUBES

For fast heat time

MAXBLACK OUTER MATERIAL

For maximum heat absorption and UV resistance

15 YEAR EXTENDED WARRANTY

Available when combined with the Boss TufMan System[®]

TufMan[®] Manifold

- Moulded in a single piece for strength and durability
- Maximum water flow to each tube
- Premium grade BASF LuranS[®]

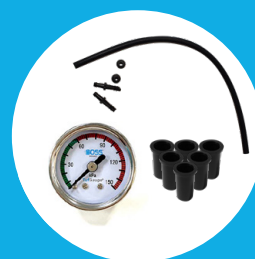

VacRel[®] Vacuum Relief Valve

- Eliminate vacuum crush
- Industry leading component
- Engineered to last

TufFilta[®] Inline Filter

- High performance inline filter
- Filters out debris and fibres
- Prevents blocked tubes and stagnant systems

Additional Required Components

- Pressure Gauge
- Rigid Collars
- Drain Tube

*System must be installed with the components outlined above and in accordance with the recommendations and guidelines published by Boss Solar. Other conditions may apply, contact Boss Solar for more information.
